Hi: looks like DWR is changing the game plan per Mike's email below. I'd note that this represents a fairly significant depart for the JD work in particular, and perhaps to a lesser degree the condition assessment part.

There's probably not much to do until Jean and Gail get back in touch, unless Erin has some notion of what that might be.

Paul

Mike and Paul,

As you remember, DWR (Gale and Jean) worked out with us a wetland assessment strategy for BDCP (attached files). As it turns out, they are going to have to modify their approach. Main problem is that no-one will let them onto their property.

At some point in the near future they will send us a modified approach, for us to review and decide if it will be sufficient for 404b1 analysis. We'll probably meet with Gale/Jean to have them talk us through their new proposal.

Thanks
